Summary

Full-stack Developer skilled in building scalable, user-centric web applications using modern technologies. Passionate about clean architecture, performance optimization, and seamless digital experiences.

Academic Details

Jalpaiguri Government Engineering College 2023 – 2027 (Expected)
B.Tech in Information Technology

- CGPA: 7.2 (Till 4th Semester)
- Coursework: DSA, Operating Systems, Computer Architecture

Skills

Frontend HTML5, CSS3, JavaScript, ReactJS, NextJS, Tailwind CSS, Framer Motion, Material UI
Backend NodeJS, ExpressJS, MongoDB, REST API
Tools Git, GitHub, VS Code, Figma
Languages C, C++, Java, Python (Beginner)

Projects

Career & Development Cell, JGEC Live 

- Built a **role-based aptitude test platform** serving **250+ students** with separate admin and student access.
- Implemented contest scheduling, drafting, user management, and **automated email alerts** using Cron Jobs and EmailJS.
- Designed a **queue-based submission system** to handle high traffic during live contests.
- Automated leaderboard generation with rankings, solutions, and answer explanations.
- Enforced **contest security measures** by enabling fullscreen mode, restricting copy actions and developer tools; triggered alerts on fullscreen exit with **automatic test submission** upon confirmation.

Tech: React, Redux Toolkit, Tailwind CSS, Node.js, Express.js, MongoDB, Cron Jobs, EmailJS, Vercel, Render

Urban Eats (Restaurant Web Application) Live 

- Developed a **responsive restaurant web application** with modern UI and smooth animations.
- Integrated **EmailJS** for customer inquiries and contact messaging.
- Optimized performance and deployed on **Vercel**.

Tech: React, Tailwind CSS, Framer Motion, EmailJS, Vercel, Render

Certifications

Front-End Development Certification  Simplilearn, 2025

Completed certification covering React, Redux, Bootstrap, and advanced JavaScript for front-end development.

Responsive Web Design  freeCodeCamp, 2025

Completed a comprehensive certification on responsive and accessible web design, mastering HTML5, CSS3, Flexbox, and CSS Grid. Built multiple responsive projects demonstrating adaptive layouts.

Achievements

Secured **10th position** in *JGEC Winter of Code (JWOC)* by contributing to multiple open-source projects.
